

50th European Conference on Optical Communication

22 – 26 September 2024

Congress Center Messe Frankfurt

The background of the entire page is a composite image. It shows a city skyline at night, with lights from buildings and streetlights. Overlaid on this is a complex network of red and blue lines connecting various points, resembling a fiber optic or data network. Several vertical lines with glowing blue tips extend upwards from the network.

The European Conference on Optical Communication (ECOC) is Europe's leading conference on optical communications, and one of the largest and most prestigious events in the field worldwide. The conference brings together experts and leaders from academia, research, and industry across the globe to share their latest breakthroughs and visions for the future. ECOC is the ideal place for you to expand your knowledge, discuss new ideas, and network with others. It encompasses everything from the materials and devices that make optical communication possible, to the systems and networks that use them.

50 years of ECOC! We are looking forward to celebrating this special anniversary with you in 2024!
